One of the best college for Study , good environment , friendly and supportive teaching faculties and non teaching staff also , i suggest one canteen area in college and i just say I miss those golden days of college era...□

Open master degree course

Very excellent College

The patidargin science college is Very important part in my life ..

They teach me very well..

Thankyou

Faculties are extraordinary and always ready to help you.....

Overall experience of the college was excellent

Good

Give internships.

Though, the college has outstanding facilities, I recommend to the Higher Authority to facilitate Chemistry Lab with Spectrophotometers like advanced instruments. It's because this may be the case that college may not have that much budget to purchase those expensive instruments. So higher authority should provide. Here, students get the best opportunities to be competitive in the present job setting and Market needs. This is because the faculty teaching is excellent and appreciated. All the faculties work hard to give best to their students.

Very good

Good for me

Very nice college, taking care of each and every student. Provide all the facility whichever is required.

I have visited the collage few months ago.

I have seen that they have changed its infrastructure for the laboratory and library. It will be now more pleasing to work in that environment.

One of the best college in all over University ✨
